

Cartography Community Mapping is pleased to announce the release of its latest map "Welsh Village".

This map covers the area of the Castlemaine Diggings National Heritage Park to the north of Chewton, Victoria, Australia. The Goldfields Track (this section of the track is common to the Great Dividing Trail and the Leanganook Track) passes through the area covered by the map. The map overlaps on its western edge the Kalimna Park map. Some of the notable features in the area are the Garfield Water Wheel, the Welsh Village, Sailors Gully, Manchester Reef and Forest Creek.
